Signalisation / Segnaletica / Signalisation

Un conseil professionnel :

Nous vous conseillons, afin que votre signalisation réponde aux normes VSS en vigeur et à l'ordonnance sur la signalisation routière.

La norme SN 640 871 définit 3 niveaux d'équipement :
R3 : Très forte action rétroréfléchissante (DG3)
R2 : Forte action rétroréfléchissante (HIP)
R1 : Action rétroréfléchissante (EGP)

Des matériaux de qualité, une production interne et une garantie de plusieurs années :
Nous produisons dans nos locaux vos panneaux en utilisant des films rétroréfléchissants 3M.
Cette production interne nous permet de vous donner une garantie sur plusieurs années.
Pour cette raison vous trouvez derrière nos panneaux un autocollant qui vous indique l'année de fabrication.

Una consulenza professionale :

Vi consigliamo affinché la vostra segnaletica sia conforme alle norme VSS e all'ordinanza segnaletica stradale in vigore.

La norma SN 640 871 definisce 3 livelli di equipaggiamento :
R3: Azione retroriflettente molto forte (DG3)
R2: Azione retroriflettente forte (HIP)
R1: Azione retroriflettente (EGP)

Materiali di alta qualità, una produzione interna ed una garanzia su più anni :
Produciamo i nostri cartelli in sede utilizzando esclusivamente dei film retroriflettenti della marca 3M.
Questa produzione interna ci consente di dare una garanzia su più anni.
Per questo motivo troverete sul retro dei nostri cartelli un adesivo che indica l'anno di fabbricazione.

Professionnelle Beratung :

Wir beraten Sie, damit Ihre Beschilderungen den aktuellen Angaben der VSS-Normen und der Verordnung über die Verkehrszeichen erfüllen.

Die Norm SN 640 871 wird durch folgende 3 Ausstattungen definiert :
R3 : sehr hohe Retroreflektion (DG3)
R2 : hohe Retroreflektion (HIP)
R1 : normale Retroreflektion (EGP)

Hochwertige Materialien, interne Produktion und eine Garantie von mehreren Jahren :
Wir produzieren intern und verarbeiten ausschliesslich retroreflektierende Folien von der Firma 3M.
Diese interne Produktion ermöglicht es uns, Ihnen eine Garantie von mehreren Jahren zu gewährleisten.
Aus diesem Grund kleben wir auf die Rückseite des Signals einen Aufkleber mit dem jeweiligen Herstellungsjahr.

Les niveaux d'équipement minimaux des signaux suivant leur emplacement sont les suivants :
Requisiti minimi per i segnali dipendenti dalla posizione :
Mindestanforderungen an die Signale je nach Standort :

Type de route Tipo di strada *Strassentyp*	**Signaux pour le trafic en mouvement** Segnali per il trafico in movimento *Signale für den fliessenden Verkehr*			**Signaux régissant le trafic arrêté** Segnali per il trafico fermo *Signale für den ruhenden Verkehr*
	En bordure de chaussée Bordo della strada *Strassenrand*	**Suspendu sur la chaussée** Sospeso sopra la carreggiata *Überkopf*	**Section de tunnel** Galleria *Tunnel*	
Autoroutes, semi-autoroutes Autostrada, superstrada *Autobahn, Autostrassen*	R2/R3	R2/R3	R3/I	R2
Routes principales, routes sécondaires Strade principali e secondarie *Haupt-und Nebenstrassen*	R2	R2	R2/R3	R1
Routes secondaires peu importantes, pistes cyclables, allées d'équitation, chemins pour piétons, places de parc et aires contiguës Strade secondarie poco importanti, piste ciclabili, piste di equitazione e camminamenti pedonali, aree di parcheggio e aree adiacenti *Unbedeutende Nebenstrassen, Rad-Reit- und Fussweg, Parkplätze und Nebenverkehrsflächen*	R1	R1	R1	R1
